Participation is limited for 96 competitors in all kumite categories and 128 for Kata, with following phases of inscription:

- 1st phase:** registration only by National Federations (first 2 weeks of registration).
Maximum, 1 athlete per category.
- 2nd phase:** open registration.

All competitors, referees, coaches, officials (including VIPs) and media representatives must register online using the online system provided by the approved software partner of WKF during the online registration period.

Therefore, each participating authorized Club or National Federation must have a user account. This user account and all entered data can be reused for all other Youth League events. In case of problems or questions, users can directly contact the software provider.

The online registration of athletes will be openly disclosed for everyone from the beginning, allowing consultation by WKF NFs of the competitors registered in real time. Any comment regarding the online registration should be addressed as soon as possible to the software provider, with the WKF in copy, in order to allow taking them in consideration without altering the smooth running of the process. 15 days before the start of the event the online registration will close. Any comments will then have to be notified to the software provider and to the WKF latest five days before the first day of competition.

The URL for the online registration must be included prominently in all bulletins.

The provided software requires that all necessary registration data for competitors, coaches and referees must be entered during online registration.

This includes the following data:

Individual categories

- Name and surname of the competitor.
- Club and National Federation
- Date of birth
- Gender (Female/ Male)
- Photograph (size according to software specification)

The entry fees for WKF Karate 1 - Youth League events are per individual category entry, € 75/ 1st month; € 90/next month; € 100/ last 15 days. The WKF may change this fee from year to year. The entry fees belong to the organizers.

Users are responsible for the quality of the entered registration data. Changes of online registration data are possible until the end of the online registration period, with prior authorization from the WKF. The online registration automatically closes at the end of the online registration period. If changes are required during the official accreditation session because of incorrect registration data, a fee of € 50 is charged for each change.

II. Coach Information

According to the current WKF Coach Education Programme, the minimum certification required to take part in the Karate 1 – Youth League A events is the “WKF Accredited Coach” certification (level 1). To obtain such certification, coaches must complete a course or through the WKF Coach platform online or participating in one of the Programmes for Coaches held in WKF official events throughout the year.

III. Onsite Accreditation & Accreditation Cards

All participants must show their official passport for validation at the registration session.

The accreditation of all the competitors must be done by the athlete’s delegate, in person, bringing the athlete passport at the accreditation session.

The athlete's accreditation must contain an updated photograph that allows the athlete to be identifiable throughout the event.

That competitor who his/her delegate has not collected his/her accreditation card during the accreditation session will not be included in the event draw.

The draw will be conducted directly after the official registration via the software by the local software officer in the presence of the WKF-Supervisor or a person expressly appointed by the WKF Supervisor. Each completed master sheet must be signed by the WKF Supervisor or the appointed person.

The draw must use the random process provided by the software. This process is WKF approved and guarantees random placement of all participants, without separation of competitors from the same countries. This is to express the character of Karate 1, which is a tournament series for individual members of WKF and not of National Federations, clubs or teams, and to give all competitors equal chances.

Entries for the draw will be those taken from the online registration database.

After the draw is finished and signed by the WKF Supervisor, it will be made available online to make it accessible to the general public.

10. SOFTWARE USAGE AND TRAINING

To ensure a high-quality level of all WKF Karate1 Youth League events, the approved software must be used for all processes of event management, including online registration, accreditation and during event execution. Therefore, all competition areas must use the software and relate to one central database (the installation of hardware and software is done by the software provider). This allows the keeping of precise records of winners, points, Kata, and results electronically and the computing of repechage and pool winner lists automatically.

Moreover, the software provides public views / screens for referees, coaches, and visitors to easily monitor all activities.

Additionally, all activities during the event will be live on the Internet to allow online users to follow the event. Therefore, a dedicated high-speed Internet connection must be available to upload event information to the Internet during the event. For technical requirements of software usage on the competition area, see Section 20.

The NF host must provide at least two (2) software operators for each competition area. These operators must be able to communicate in the English language and read English documents and should also be aware of the WKF competition rules.

The software provider also provides training for operators. This training session must be held no later than the day before start of the event. The list below is not exhaustive and the WKF reserves the right to require the [Hosting NF / Local Organizing Committee] to procure and maintain other types of insurance policies depending upon the outcome of any risk assessment:

- i. Third party liability insurances
 - Public or general liability: this policy shall be written on an “occurrence” basis, or on a “claims-made” basis and for a duration of minimum [...] after the end of the dissolution of the [championship/tournament] or more if it is required by the law. This policy must at least cover the following risks: bodily injury, property damage, personal injury, pure financial loss, advertising liability, premises and operations liability, pollution liability, contractual liability, and independent contractor operations. This insurance must also include cover for acts of terrorism.
 - Product and completed operations liability: to cover claims arising in connection with the sale of products specifically bearing the WKF’s emblem or other WKF’s trademarks or products otherwise licensed or authorized by the WKF.
 - Professional liability: to cover costs related to the defense and indemnification of claims in connection with actual or alleged negligent acts/omissions of the [Hosting NF / Local Organizing Committee] in the planning, organizing and staging of the [championship/tournament]. This policy shall include Cyber Liability.
 - Medical malpractice: to cover claims arising from the medical activities of all of the [Hosting NF / Local Organizing Committee]’s medical workforce to the extent that such workforce is not already covered by other means (hospital insurance cover and/or by the host country’s health system or provider).
 - Medical treatment and repatriation insurance: to cover the medical expenses relating to all injuries and illnesses that require treatment before the accredited person is able to return home. This policy must include repatriation. However, if medical treatment is delivered at no cost by the government health service, medical insurance is not required. In such cases, repatriation has to be covered on a stand-alone basis.
- ii. Property insurance: to cover damages to all property owned, leased or in the care, custody and control of the [Hosting NF / Local Organizing Committee], or for which the [Hosting NF / Local Organizing Committee] is contractually responsible, including subsequent financial loss of income.
- iii. Construction all risk insurance: to cover risks related to the [Hosting NF / Local Organizing Committee]’s responsibility for specific construction projects (including equipment and overlay).
- iv. Personal accident including permanent disability: to provide compensation in the event of death or disability of accredited persons following an accident occurring in connection with their activities at the [championship/tournament] (including terrorism).

- v. Crime, fidelity and fraud: to cover the loss arising from theft and robbery of assets or fraud (crime).

This liability insurance should cover bodily injury, property damage and consequential loss, up to a minimum sum insured of € 750.000 (or equivalent in local currency).

WKF, its agents and servants, officers, or employees, shall be included in the policy as additional insured.

The host NF / LOC shall provide to WKF HQ, one (1) month prior to the start of the Championships, with proof that the above-mentioned liability insurance policy is in place for the respective Championships.

Where such policies are not available, the host NF / LOC shall inform the WKF HQ who will then, if possible, arrange such cover and invoice the host NF.

Cancellation Insurance Cover

The host NF / LOC should take into consideration possible losses in connection with their costs, expenses, guarantees and other irrecoverable monetary commitments, resulting from cancellation, abandonment, or postponement of the event.

It is therefore recommended that the host NF / LOC take out adequate cancellation insurance cover.

Insurance of Delegations

The host NF / LOC shall inform the NF's participating in the Championships that they require proper liability, personal accidents and repatriation insurance cover for all members of the delegation, including their competitors participating in the Championships.
